

Alger Community Recycling

Gateway to Adventure

PURPOSE

Alger Community Recycling is a partnership between the National Park Service, National Forest Service, City of Munising, Munising Township and the University of Michigan Extension. The group re-established community recycling in 2004 after the collapse of commercial recycling a year earlier and provides oversight and direction of the program. For the past 5 years, the group has worked with both Lakestate Industries in Escanaba, the materials broker and the end customer Manistique Papers, of Manistique to maintain a successful community paper recycling program. Manistique Papers manufacturing process utilizes 60% pre and 40% post-consumer recycled fiber in their paper production operation. Sale of recycled paper supports the overall community recycling program. Over **75 tons** of paper have been recycled through this program.

EVENTS

Recycle Tuesdays

Where: ALTRAN South parking area (*watch for the large trailer*) adjacent to the City of Munising Sewage Treatment Plant.

Time: (*Winter*) Noon – 4 pm / (*Summer*) Noon – 6 pm.

JOIN US!

The Recycle Committee invites and needs citizens to join the group and work for a sustainable future.

THE FUTURE

The Committee plans to expand the types of recyclables in the near future as the numbers of volunteers increase to include cardboard and plastic. All residents, businesses and offices are encouraged to participate in this community program. Watch for upcoming announcements.
